

BERNARD JOHNSON COLISEUM RENOVATION SAM HOUSTON STATE UNIVERSITY

CLIENT

SAM HOUSTON STATE UNIVERSITY
TEXAS STATE UNIVERSITY SYSTEM

LOCATION

HUNTSVILLE, TX

ROLE

PROJECT AND PROGRAM MANAGEMENT

PROJECT

\$12 MILLION
93,000 SF

ECM International was selected by Sam Houston State University to provide project management services for the University's Bernard Johnson Coliseum Renovation. The Coliseum is a 93,000 SF multi-use facility for numerous recreational sporting activities and community events. The 6,100 seat venue is home to SHSU's volleyball team, men's and women's basketball teams.

The renovation was conducted on an expedited schedule while coordinating with ongoing operations. Originally completed in 1976, and having undergone only minor renovations, the facility was in need of a significant mechanical and functional upgrades as well as an aesthetic face-lift to attract a broader spectrum of events to the facility, improve recruiting capabilities for the men's and women's athletic teams and to extend the useful life of the coliseum.

ECM's role on this project was to provide project management, consultation and leadership in support of the University's Facilities Planning and Construction staff in their day-to-day operations as well as act as a trusted advisor to Facilities Management and University Administration.
