

CAMPUS-WIDE PROGRAM MANAGEMENT SERVICES SAM HOUSTON STATE UNIVERSITY

CLIENT

SAM HOUSTON STATE UNIVERSITY
TEXAS STATE UNIVERSITY SYSTEM

LOCATION

HUNTSVILLE, TX

ROLE

PROJECT AND PROGRAM MANAGEMENT

PROJECT

\$400+ MILLION

ECM International has been continuously engaged by the Texas State University System (TSUS) on behalf of Sam Houston State University (SHSU) to perform program management services across the Huntsville and Conroe campuses.

The transformative building campaign features multiple components including the Fred Pirkle Engineering Technology Complex, Biology Laboratory Building, Student Health and Counseling Center, General's Market Dining Hall, Piney Woods Hall, Bernard Johnson Coliseum Renovation, the Coliseum Parking Garage and the newly accredited College of Osteopathic Medicine, as well as upgrades and extensions to the campus infrastructure.

As a program manager, ECM has worked with the University staff in the selection of the architects, contractors, material testing companies, commissioning agents, surveyors, geotechnical investigation, and environmental engineers. ECM has developed master schedules and budgets to manage and control from programming to closeout. In addition, ECM has helped the University staff write project management and quality control procedures to be implemented in all its projects.
