

RIO GRANDE CAMPUS EL PASO COMMUNITY COLLEGE DISTRICT

CLIENT

EL PASO COMMUNITY COLLEGE DISTRICT

LOCATION

EL PASO, TX

ROLE

PROGRAM MANAGEMENT

PROJECT

\$37.7 MILLION
ACADEMIC FLOORS (65,200 SF)
PARKING DECKS (160,000 SF)

The Rio Grande Campus is located in a unique area, adjacent to historic districts and within a downtown urban context which presented several challenges. The new facility fills multiple needs by providing needed parking on five levels, topped by two educational floors that address current and future needs for the Radiology, Nursing, EMT, and Phlebotomy Departments, as well as space for a large testing center, Criminal Justice classroom, and additional general-purpose classrooms and faculty offices. The design of the new facility embraces current design trends in higher education, providing multiple areas for student and faculty collaboration, and will be a welcome and greatly-needed addition to the campus.

ECM's comprehensive Program Management Services for the El Paso Community College District (EPCC) include construction and project management, acting when necessary as experienced technical consultants or additional staff, providing EPCC the ability to successfully plan, budget, design, and construct state-of-the-art facilities that will positively enhance affordable local educational opportunities for years to come. ECM provides regular updates to the Board of Trustees and directly assists in regulatory and public relations efforts that are necessary for the overall success of the 2016 Bond Projects.
