

TRANSMOUNTAIN CAMPUS ADDITION EL PASO COMMUNITY COLLEGE DISTRICT

CLIENT

EL PASO COMMUNITY COLLEGE DISTRICT

LOCATION

EL PASO, TX

ROLE

PROJECT MANAGEMENT

PROJECT

\$5.1 MILLION
24,747 SF

ECM is currently engaged by the El Paso Community College District (EPCC) to provide Project Management services for their 2016 Bond Program; a \$125 million-dollar effort that includes six construction projects across their 5 campuses, totaling over 425,000 sq. ft.

This project was a 25,000 sq. ft. addition to an existing single-story educational facility. The focus of this expansion was to create additional classrooms as well as essential student study and collaboration spaces. As with all of the various EPCC projects, the addition allowed for the expansion of high-demand curricula and amenities. On the Transmountain campus, this features dedicated Fashion Design and Interior Design and associated computer lab. The project also included general purpose classrooms, computer lab, student study and gathering spaces, faculty office and collaboration areas as well as two large outdoor gathering spaces, building technology and building-wide wi-fi access.

ECM provided comprehensive Program Management services from initial budget planning and scheduling through procurement to full-time construction management and move-in.
