

## VALLE VERDE CLASSROOM AND LABS EL PASO COMMUNITY COLLEGE DISTRICT

### CLIENT

EL PASO COMMUNITY COLLEGE DISTRICT

### LOCATION

EL PASO, TX

### ROLE

PROJECT MANAGEMENT

### PROJECT

\$36 MILLION  
106,000 SF

The Valle Verde Campus is the largest and most centrally-located facility in the District. The project is one of six projects in El Paso Community College's (EPCC) 2016 Master Plan Bond Program. ECM was selected to manage the Bond Program and its various projects.

The new Classroom/Laboratory Building is designed to be a significant addition, both academically and architecturally. While the facility is intended to meet many unique spatial needs for the various programs it will house, the systemwide vision of fostering collaborative educational excellence is evident here.

The 106,000 SF, three-story facility will focus on a Science, Technology, Engineering, Arts & Math (STEAM) curriculum and offer students and staff mix of science and computer laboratories, music and arts studios, classrooms, gathering spaces, a 300-seat community room and engaged learning spaces will facilitate a fusion between various programs.

This building is expected to become a hub for students, instructors, staff and the surrounding community.
